Contract Solutions

Magnifying the fine print.

There are hidden risks lurking in just about every contract. Our lawyers have the experience to find them so you avoid any bad surprises. We also draft contracts on your behalf, and we highlight to in-house lawyers any points of negotiation. To save you time, our lawyers will also create Risk and Obligation summaries of each contract.

Project Example:

Client: Global Telecommunications Provider

Problem: Client had a freeze on hiring but significant increase on in-house workload.

Result: Dedicated team of three attorneys decreased deal cycle times and increased the number of deals managed. The CPA Global team also increased efficiency by standardising templates and supporting the creation of a global contracting tool.
