

**Buried under paperwork?  
We can dig you out.**

Highly-trained, well-paid lawyers shouldn't spend the bulk of their time doing the little detail work, no matter how important it is. These tasks can eat up days and weeks that should be spent on bigger projects.

Instead of bogging down your staff, send that huge stack of documents or mountain of contracts out the door — and send it with confidence knowing it will be in the hands of legal specialists with 40 years of experience.

### **A global workforce with one phone number.**

When you hire CPA Global, you're getting skilled multi-shored lawyers working on-demand with no compromise in quality and security. We take pride in our ability to customise our work to meet your needs and give you a fast turnaround time. To keep things efficient, you'll have a single point of contact throughout your project.

### **Across the world feels like down the hall.**

Monitoring your work is crucial. With our KPI tracking system, you'll have round-the-clock online access to follow the workflow with the ability to give instant feedback.

### **Get it done right, for less.**

We can save you an average of 25% on every project. Plus we eliminate the time, effort and cost of recruiting, training or retraining your staff.

**Little things causing big problems?  
Let us help.**

### **Document Review**

**We go line by line, so you don't have to.**

Document review is one of the most painstaking jobs a lawyer has. But rest assured, we're just as meticulous on page 2,376 as we are on page one. In the last year, we have reviewed over 20 million documents. We can streamline the review process to help you reduce risks and costs, improving your focus on other areas.

Our document review service covers a wide range of legal paperwork including litigation, government investigations, fraud, internal investigations and regulatory matters (SEC, DOJ, etc.).

### **Project Example:**

**Client:** International Mining Group

**Problem:** Client needed regulatory approval for an asset sale in excess of \$500 million requiring a thorough yet timely response to the US Federal Trade Commission.

**Result:** A team of 50 US based attorneys reviewed over 35 million pages of documents. Within 48 hours of receiving instructions, the CPA Global team met with the client's outside counsel to understand the key issues and to agree to complete the project within three weeks. The review project saved \$1.5 million in fees—nearly a 50% reduction in costs.

### **Transaction Support Services**

**We'll help you come out ahead.**

We're here to assist with every angle of the transaction: from document review to deal room management to due diligence support. In short, we handle all the little things that come with any big deal. And with our efficiency, we'll always work to reduce total transaction costs.

### **Project Example:**

**Client:** FTSE 100 Company, divesting a subsidiary by way of a share sale transaction

**Problem:** Needed to reduce transaction costs without compromising on quality.

**Result:** A team of seven lawyers completed the transaction review within six business days, reducing the cost of the project. Client has since partnered with CPA Global on further transactions.

### **Contract Solutions**

**Magnifying the fine print.**

There are hidden risks lurking in just about every contract. Our lawyers have the experience to find them so you avoid any bad surprises. We can also draft contracts on your behalf, and we highlight to in-house lawyers any points of negotiation. To save you time, our lawyers will also create Risk and Obligation summaries of each contract.

### **Project Example:**

**Client:** Global Telecommunications Provider

**Problem:** Client had a freeze on hiring but significant increase on in-house workload.

**Result:** Dedicated team of three attorneys decreased deal cycle times and increased the number of deals managed. The CPA Global team also increased efficiency by standardising templates and supporting the creation of a global contracting tool.

### **Legal Research Services**

**We dive deep.**

Research is another time-consuming yet hugely important task. To help you, CPA Global can quickly assemble an experienced team to handle the workload and issue clear, concise reports—saving you countless hours and many headaches. For example, every month we conduct hundreds of hours of research for a global technology company with offices in over 57 countries.

### **Project Example:**

**Client:** Global Insurance Company

**Problem:** Client field attorneys faced increasing case loads. They found themselves settling lower-value cases instead of developing and litigating high profile cases.

**Result:** CPA Global attorneys produced deposition summaries, legal research on core issues and drafts of motions. This allows the field attorneys to leverage the developed cases for favorable settlements or litigation.

LEGAL SERVICES OUTSOURCING

## You Need

## You Get

## Which Means

### Cost Reduction

A multi-shore blend of talent tailored to fit your needs

Around a 25% reduction in M&A legal costs. Save on recruitment, training or retraining. Switch labour pool on and off as needed.

### Scalability

Skilled onshore and offshore lawyers

Rapidly scalable access to multi-shore lawyers supervised by CPA Global senior legal staff. The best of both worlds.

### Timescale and Project Management

Hour-shaving, multi-shore capability

Ability to shorten project cycles, speed up process and save money through service on demand. Add to that adept project management.

### Quality

Quality assurance & controls and customer surveys

Quality you can trust—and track. Process disciplines in place to manage and gauge performance.

### Integration

Single point of contact

Call it rolodex efficiency. An experienced CPA Global lawyer is your one contact for in-house and external counsel. If you need more dedicated support, a specialist FTE team can act as an extension of your legal team.

### Security and Control

Secure systems, process and people management

CPA Global uses the best in class systems to give you both security and control over your projects. Rest easy knowing you have market-leading VDR, a defined statement of work and clearly established responsibilities.

### Transparent Measurement

KPI tracking system

Know where you stand with round-the-clock online access to project performance data including KPI and Csat feedback.

### Innovation and Risk Mitigation

Invaluable Added value

End-to-end IP and legal service solutions that provide insight into the true strategic value of the transaction. More brains for your buck.
