

Trademark Solutions

CPA Global, the leading provider in intellectual property services for over 40 years, offers a comprehensive range of trademark solutions.

The Trademark Lifecycle

Trademarks are essential in preserving brand and corporate identity and must be intelligently created, rigorously protected and carefully maintained.

IP Management Software: We offer three distinct software solutions to manage the entire trademark lifecycle. By providing the most advanced, innovative and configurable solutions on the market, we've established ourselves as a leading provider of IP management software for corporations and law firms worldwide. Our consultative approach to the software selection and integration process ensures that your organization selects the best solution to complement and support your IP management requirements.

Trademark Searching & Clearance: We partner with Avantiq, a global IP search specialist, to provide the most comprehensive scope of trademark search coverage available today. Our globally comprehensive search products range from subscription search databases to customized search reports delivered by our team of search analysts. All search results can be viewed and managed through INSPIRO, Avantiq's online workbench.

Paralegal & Docketing Support: CPA Global IP Support Services provides paralegal and docketing services to support trademark prosecution and maintenance matters in law firm and corporate environments. We bring the skilled resources to enable your organization to scale without incurring the fixed costs associated with training and maintaining permanent trademark staff. Our large pool of experienced trademark paralegals, docketers and billing administrators become a natural extension of your department and can assist in all facets of the trademark lifecycle.

Trademark Renewal Management: We provide a comprehensive trademark renewal offering inclusive of reminders, agent and PTO instructions, formality and legalization support, POA service and renewal confirmation. Our service is designed to alleviate the repetitious and administrative burden incurred in the renewal process, allowing you to focus on the substantive side of trademark management.

Trademark Recordals: We manage trademark recordal work across all jurisdictions around the world. Through our proprietary project management approach, we handle IP recordal projects from short form deed preparation to confirmation of recordal and all steps in between. By leveraging our foreign agent network, we negotiate competitive agent rates and can provide total-cost-of-project quotations before work commences.

TMDS Watch Service: CPA Global offers a suite of strategic watch products delivered through our proprietary electronic watch technology combined with linguistic watch analysts trained and experienced in detecting clever trademark infringements. All languages and dialects where trademarks are recognized are covered by our team of linguistic watch analysts.

Digital Content Watch: We provide digital content watching service where we monitor domains, trademark and brand usage on the worldwide web providing intelligence to your comprehensive online brand protection strategy. Watch results can be viewed and filtered using our secure online portal.

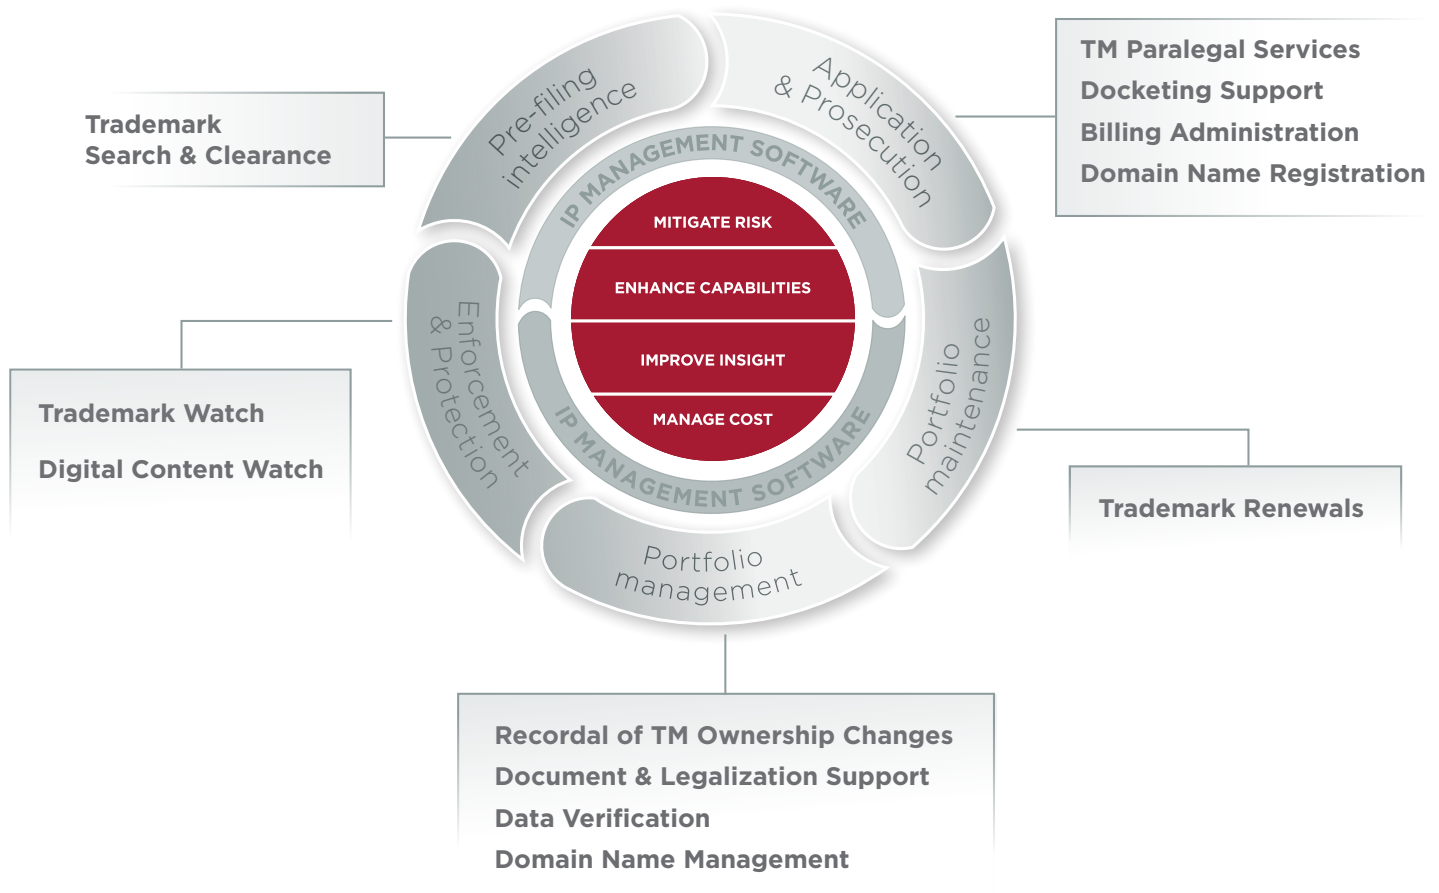

Domain Management: CPA Global provides a comprehensive suite of business critical domain name management solutions to effectively build, maintain and defend your portfolio.
