Law Update Service for CPA Inprotech

As an international business, the process of filing patents, trademarks and designs never stops. Your staff must deal with different and constantly changing laws, customs and issues in every country to assure that your IP practices are up-to-date. Tracking the legal issues in each country is a time consuming and often confusing chore. But failure to do so jeopardises the management of your patents and trademarks renewal.

Our Law Update Service saves you time and reduces your level of risk by keeping your legal responsibilities up-to-date. Using a combination of software, access and on-call IP lawyers, we help you manage your efforts so that you are always as current as you need to be around the globe.

Our Service lets you:

- Constantly monitor your laws, and provide updates at any time
- Increase your knowledge using our powerful law engine to better manage your renewals
- Call on an international network of in-house IP lawyers for thorough and timely legal/technical assistance
- Configure your law database to fully track all your legal prosecution and internal workflow

Our Service includes:

Legal watch

Our in-house dedicated IP lawyers constantly watch and research changes related to international laws, in coordination with our CPA network of IP agents.

The Law Update Service Advantage

IP Support and Training		
Legal Watch	Law Bulletin	Law Update Tool
Dedicated in-house IP lawyers watch and research changes related to International IP law.	The Law Bulletin reports all changes related to IP laws. It is sent to clients on a quarterly basis as an XML & PDF file.	The Law Update Tool helps clients consult, compare, and perform updates manually or automatically into their law database.

Law Update Service for CPA Inprotech

Issues include:

- Renewal laws for all countries, trademarks, patents, and designs
- Dates of Statement/Affidavit of use
- Opposition deadlines
- Main formalities for prosecution
- Country code changes

Law Bulletin

Every quarter, our IP lawyers notify you through the Law Bulletin, which is sent as an XML and PDF file. This publication details the changes relating to international law over the past three months.

Law Update Tool

Easily revise your own law records within your database. This powerful interface is user-friendly, and allows you to automatically load the Law Bulletin, compare it with current information, and update your law database – at a time and location that is convenient for you and your staff.

We regularly refine the Law Update Tool to provide even better performance. Whenever a new version is released, you receive an immediate update to help you stay ahead of the changing landscape.

IP support

We offer technical assistance around the Law Engine scheduling tool and the Law Database. Our in-house legal team is available via telephone and e-mail for just-in-time support and answers to questions.

About CPA Software Solutions

CPA Software Solutions, part of the CPA Group, is a leading provider of IP management software for companies and IP attorney firms worldwide. We deliver the most advanced, innovative and configurable solutions available, designed specifically to fit your individual needs.
